Major and minor Chords – 3.3

Now, it's time to learn some more chords. Learn to play these as they will be added in our music the more we play. Be familiar with them and put some of these new chords into older excercises.

In this chart, each of the major chords are split off into groups of three, because they are commonly used together when playing a specific song.

A, D, and E7

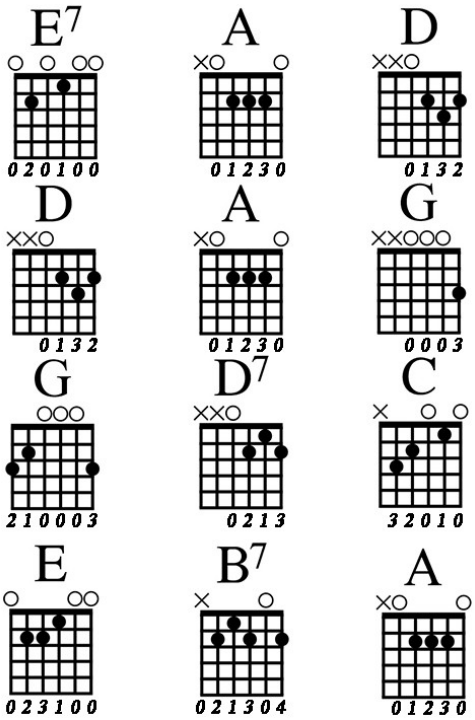

D, G, and A

G, C, and D7

E, A, and B7

I like to call these set of major chords the Holy Trinity of chords. Practice them together to become familiar with them.

Major Chords

Minor Chords
